

Presents
CHRIS GANTRY
THE OUTLAW BIBLE

No one can sing outlaw songs like the original outlaw. Chris Gantry pulled into Nashville to do his own thing his way, and that way was an eventual musical movement for which he had been a founding member. Friends like Shel Silverstein and Johnny Cash understood it, and Kris Kristofferson even went so far as to write a song based on Gantry, whom he identifies by name right there on the record. But it was Glen Campbell who made a Gantry song a hit with his rendition of "Dreams of the Everyday Housewife."

The Outlaw Bible, a new release written and sung by Gantry himself, is just that, a guide through the outlaw music experience, a concept album of an important branch of the country music tree. Chris Gantry is uniquely qualified to weigh in.
