Uranium Savages-Savage Country

It's been more than thirty years since the last Uranium Savages album, and SteadyBoy Records is thrilled to have these musical savages in the fold. This loose affiliation of musical hooligans is a slice of Weird Al, a dash Spinal Tap (gone country), a serving of Spike Jones, and a heaping helping of Austin weirdness, keeping it that way since well before Keeping Austin Weird became a thing. The song title, "Bicker, Leer, and Whine," (as in, "all she does is...") says most of what you need to know about this authentically motley musical crew. We won't name all the songs here, because a Parental Advisory warning label comes with this release, which tells you even more about this historically hilarious Austin institution.
